

## MILLEPROROGHE

### CONFIRM THE HIRINGS IRC ALSO FOR THE 2026/2027

Accept the request of Snadir  
to cover all vacant and available posts

# Il Milleproroghe conferma la strada giusta: assunzioni anche per l'A.S. 2026/2027

**Accept the request of Snadir to cover all vacant and available posts**

The extension contained in the draft of the Milleproroghe – art.5, comma 5 – extends also to the school year 2026/27 the hirings of religion teachers participating in the ordinary competition 2024. It is the confirmation of a political will to continue the path of stabilization of the teaching of Catholic religion.

*"A important signal – affirms Orazio Ruscica, National Secretary of Snadir and president of FGU – that is however translated into administrative acts so clear when timely. It realizes what Snadir asked, namely to insert a normative provision that ensures the coverage of all vacant and available posts".*

The extraordinary procedure has ended with **6.022 immissioni in ruolo al 1° settembre 2025** but has left **2.028 posti vacanti e disponibili** to cover to reach the 70% planned by the 186/2003 law.

*"The official data in the possession of the MIM and the D.M. 144/2025 – explains Ruscica – confirm that there are spaces to hire and that the organic is stable for years, without increasing expenses. Therefore, transforming annual contracts into posts of function means simply reallocating resources already present in the budget".*

On 1<sup>st</sup> September 2026 there will be **1.928 teachers of religion hired from the ordinary competition**. They will be 100 posts derived from the organic of 2025/2026 to which we will add the number of future retirements (more or less 400).

*"These 500 posts – says the National Secretary of Snadir – could be used for the progression of the graduations of extraordinary procedures. It is therefore indispensable that the MIM proceed without delay to the immission of posts on all available posts, avoiding delays, different interpretations and new precarious structural".*

**Snadir asks the Ministry in three points defined, a political commitment:**

1. guarantee the full coverage of vacant posts in accordance with the normative;
2. program the hiring from the start of the 2026/27 school year as provided for in the Milleproroghe;

3. tutelare il diritto alla stabilizzazione dei docenti di religione e la continuità didattica nelle scuole.

*"La stabilizzazione – conclude Ruscica – non è un favore: è un obbligo di legge, un atto di giustizia verso migliaia di insegnanti e una scelta di qualità per il sistema scolastico italiano. Per questo Snadir continuerà a vigilare e a rivendicare il rispetto delle norme e dei diritti del personale IRC".*
